Polio Shots To Be Offered To Adults

On Wednesday, December 9th from 2 to 5 o'clock in the afternoon, the Didsbury Branch of the Canadian Legion, with assistance of the Mount View Health Unit will hold a Clinic to immunize adults against Polio. Three doses will be necessary. The second clinic will be at the same time on January 6th, 1960. Third dose will be given probably in August. Times will be advertised later.

All clinics will be held at the Lions Hall, Didsbury.

Polio myelitis has been prevalent in Canada for many years, annual outbreaks have occurred frequently in one or other provinces. A major Dominion-wide outbreak occurred in 1952. This was followed in 1953 by an epidemic in which 8,878 cases were reported, the highest incidence ever to occur in the country. Since that year, until now there has been a steady annual decline in the number of cases. This year, the downward trend has been reversed by large outbreaks in Quebec, Ontario and Newfoundland, and a general increase in all other provinces, except Manitoba.

Alberta, has generally followed the trend of the rest of the country. Up to 1952, with exception in the years 1927 and 1948, there had been an average of 80 diagnosed cases each year. In each of the years 1927 and of these cases, only 24 were diagnosed as being paralytic. However, this year, in keeping with the trend throughout the country, by the 31st of October there had already been an increase in the reported number of paralytic cases. Till that date 46 paralytic cases had been notified, compared with only 21 for the same period last year.

These clinics are for adults only. Children for several years have received immunisation at the Health Unit Pre-School and School clinics. Almost all our school children and an increasing majority of our pre-school children have by now, been protected to the standards at present advocated.

Several adults have also received immunisation against poliomyelitis at the unit clinics. However, as a group, adults are relatively unprotected. It is important that this situation be remedied, because adults, especially those between 20 and 40 years of age, are still susceptible to the disease, and many contract it. Since 1951, in the province, adults have produced one-third of all cases of poliomyelitis. This is a high proportion, but the important thing is that, out of this number, nearly two-thirds of all the deaths have occurred. Especially tragic are paralytic infections and deaths among pregnant women, who are particularly susceptible to the disease.

During the present large number of cases in four of the eastern provinces, adults have contributed a relatively small 25% of the cases, but have accounted over 50% of the deaths. This is why all adults should be immunized. You are not immune.

FAMILY REUNION HELD AT ACME

An event of interest to many in this district was the family reunion held at the home of Mr. and Mrs. L. Wilwer in Acme recently in honor of Mr. Dan Wilwer, who was celebrating his 80th birthday. During the afternoon and evening many friends of long standing called in to offer their congratulations.

Midway News

The pie social held Friday evening at the school to raise funds for Christmas treats, drew a full house and pies galore.

Entertainment was supplied by local talent and the Calgary General Hospital quartette, which included Sylvia Sawatzky.

The F.U.A. will sponsor a farm management course at Midway centre. The first class has already been held.

The Ladies Curling Club have made arrangements to paint the windows and kitchen at the rink. Any lady interested in curling is asked to contact Mrs. Jack Underhail.

The men have put a good deal of work into preparing the ice surface at the curling rink. The Jack Balderson family attended the golden wedding anniversary of Mrs. Balderson's parents, Mr. and Mrs. Klauwen, which was held in Acme on Sunday, Nov. 29.

The November meeting of Banff-W.A. was held at the manse in Carstairs on November 25. Ten members answered roll call with a box of candy. Mrs. Milo Stearns read the devotional period.

New officers elected include: Mrs. A. Brander, president; Mrs. Paul Hanson, vice-president; Mrs. Al Mars, secretary; Mrs. M. Stearns, treasurer; Mrs. J. Bobouel, sick convener; Mrs. H. Swanson, devotional leader.

Enough flour slips were turned in to purchase another set of dishes. Wilsons were brought and sent to Japan. Mrs. Al Marsh gave a paper on Hawaii.

Mr. and Mrs. Norm Kelly (Alma Swanson), spent the weekend at the latter's parental home, prior to leaving for Eastern Canada, where they will take up residence.

Westcott News

(From Our Own Correspondent)

Kim and Michael Card of Calgary are visiting at the home of their grandparents, Mr. and Mrs. Herb Goetjen.

Mr. and Mrs. Jack Baughaw visited on Sunday with Mr. and Mrs. Clarence Reinhardt. Mr. Chas. Stewart has been convalescing at the Reinhardt home after undergoing a major operation in a Calgary hospital.

Mrs. Les Goffjen returned at the weekend from an air trip to Owen Sound, Ont., where she attended her parents' 50th anniversary.

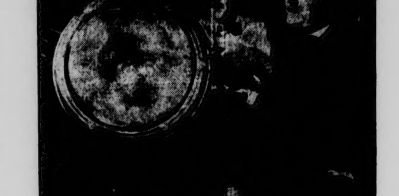

Mr. and Mrs. Alf Baudiste and family visited in Calgary on Sunday. They spent some time with the latter's mother, who had just recently returned from hospital.

Christmas Seal Campaign Going Well

Returns to date in the Christmas Seal Sale amount to \$23,269, according to Mr. P. D. Meyers, chairman of the Kinsmen Club of Calgary TB Seal Sale committee. "Daily receipts are fairly steady," said Mr. Meyers, "and we are confident of reaching our objective of \$63,000, providing our friends support us as they have so generously in the past."

Mr. R. E. Williams, Calgary, president of the Alberta Tuberculosis Association, reports that total returns for the province are \$80,388 toward the provincial objective of \$243,275 required to meet budgetary requirements of the association for the coming year. Mr. Williams said, "In an all-out effort to eliminate tuberculosis as a major health problem, we have expanded our case-finding program tremendously and if we are to carry out our plans, funds are urgently required. Early discovery is so important," he said, "as it usually means shorter hospitalization with a greater degree of recovery. The sale of Christmas Seals is our only source of revenue to carry on this work."

Congratulations may be sent to the Kinsmen Club of Calgary TB Seal Sale Committee, 118-5th Ave. S.E., Calgary, Alberta.

This month the fire fighter's spotlight is on muscular dystrophy. Firefighter Ted Dain, with his associates across Canada, will help annual March for Muscular Dystrophy raise funds for medical research to save lives of 20,000 or more Canadian victims of myotonic muscle disease. He is shown here with patient Richard Clouthier, 8.

Chinook League To Release Schedule

A Chinook Hockey League meeting was held in Carstairs November 19th with the purpose of once again organizing a league for the intermediate "B" section in this area. Four of the six teams from last season were represented, including Carstairs, Didsbury, Olds and Trochu. It was hoped that Innisfail would join again this year. The Red Deer "B" team has formally withdrawn. A deadline for entries into the league was set for December 10th and a schedule will be forthcoming shortly.

It was decided at an earlier meeting in Olds, that the Intermediate "B" team from that centre would attempt to organize again this year. With the possibility of a new arena now out of sight for this season, it was suggested by the president of the league that Olds play as many away games as possible at the beginning of the season. Should no ice be available Didsbury has consented to see what arrangements could be made to have the Olds home games played at Didsbury.

Lady Golfers End Successful Season

Golf talk was in the air again Monday evening when the Didsbury Ladies' Golf Club met for its hard-time party, in the basement of the Redeemer Lutheran church. Work boots, coveralls, velvet gowns of the '30's and dresses made of lace curtains and sackings, were very much in evidence.

Following a delicious turkey dinner, presentation of the cup, the trophy and golf gloves were made. A graceful group of ballerinas then took over and delighted those present with "Corps de Ballet" or in our language, "The Divine Ducks."

Many games of ability and skill completed the evening's entertainment. These were planned with a view to keeping the members in condition for another successful season in 1960.

Many games of ability and skill completed the evening's entertainment. These were planned with a view to keeping the members in condition for another successful season in 1960.

Congratulations may be sent to the Kinsmen Club of Calgary TB Seal Sale Committee, 118-5th Ave. S.E., Calgary, Alberta.

SPRINGSIDE NOTES

(From Our Own Correspondent)

There will be a card party at the Community Centre this Friday night. Everyone welcome.

Mr. and Mrs. Verna Wrigglesworth were Sunday dinner guests of Mr. and Mrs. C. Roth.

Mr. and Mrs. C. Wells and Jean, and Mr. and Mrs. Ed Rodney and Rosemarie, of Creston, B.C., were Sunday visitors with Mrs. Madeleine Rodney and family.

Mr. and Mrs. Ken Goodenough and daughters of Calgary were Sunday visitors with Mr. and Mrs. Wm. Morton.

Local Board Of Trade Suggest You Shop At Home

This year, more than ever, the merchants of Didsbury invite their friends and customers to SHOP AT HOME. They have a wonderful selection of any goods you might wish for — Clothing, Appliances, Groceries, Jewellery, Stationery, Sporting Goods, Giftware of all kinds. Here you will receive courteous service from clerks who are genuinely interested in your welfare and will go out of their way to please. There is no parking problem or congested traffic to contend with. PRICES ARE LOW, for quality offered. Don't believe that out of town merchants are being Santa Claus. Compare prices and you will find that there is NO saving in going away to shop.

Local merchants stand behind what they sell and are ready and willing at any time to correct anything unsatisfactory. They are here to serve you again and again.

Remember that it is the merchants who are bearing most of the load to provide paved streets and other extra facilities. It is they who have made substantial contributions to the curling rink, and to any and every worthwhile undertaking in town or country.

Support the merchants who support your town and community.

SHOP AT HOME
—Invited by Didsbury & District Board Of Trade.

Subscription Note:

A red line under your name means your subscription is overdue.

A blue line means your subscription is coming due next month.

Please pay out of town subscriptions by money order.

A Moment With Mons

Throughout the world the period of June 1st, 1959 to May 31st, 1960 is to be known as World Refugee Year.

At the November National Executive Meeting of the Imperial Order Daughters of the Empire, the National President, Mrs. A. K. Richardson, said the I.O.D.E. members had given their unanimous support to World Refugee Year and agreed that the most practical method was to increase the Order's overseas programme of assistance to refugees.

From 1942 until 1959 the I.O.D.E. has spent more than a million and a quarter dollars on its refugee work.

From 1942 until the conclusion of World War II, relief was supplied to 75,000 refugees to the extent of \$263,832.

In the period of June 1946 to June 1959, the sum of \$984,266.99 was expended on aid for refugees in Europe, North Africa and Korea.

During these years the Province of Alberta contributed generously from the Primary Chapter level. The reports of 1958 alone show a

TWICE AS MANY DENTISTS NEEDED

The tooth with a hole in it is one dental problem; but there are others as well, involving the gums and the bone structure of the human jaw. A well-filled tooth, or a beautiful tooth with no hole in it, is of little or no good to a person if the gum tissue or the bone tissue is not sound and healthy.

If all the holes in teeth in Alberta were to be filled and all other immediate dental needs met, we would require about twice as many dentists in Alberta. But still the problem would continue because all the treatment services in the world, without some sensible educational and preventative program directed to the general public, will not take care of the over-all dental problem in this province.

Strange as it may seem, as of this moment, not everyone in Alberta is interested in taking care of their teeth.

Kin Korner

For the benefit of those interested, the following is a run-down of the monies spent on community projects by the Didsbury Kinsmen Club since it was granted a charter here:

Playground \$2983.70; Little League Baseball \$254.90; Bicycle Rack \$25; Christmas Hampers \$35; Donations for shows \$35.

Remember YOUR Christmas Seal Contribution is Important!

Peter Hamilton, British yachtman who sailed alone across the Atlantic, waves from his 21-foot sailboat, after pulling into Montreal. He took 48 days to sail across the Atlantic in the yacht, the Salmu. At Quebec he borrowed a small outboard motor to help him navigate the stiff St. Lawrence river current. He plans to leave the Salmu at the club while he flies back to England, where he will be married. Hamilton said he hopes to return with his wife in December.

Cremona Man Wounded By Rifle Shot

Daniel Welch, 22, of Cremona, is in serious condition in the Didsbury hospital after he was accidentally shot in the stomach with a .22-calibre rifle on November 25th. The accident occurred in a cabin in the Fallen Timber district, 12 miles north of Cremona, when Welch and his 14-year-old cousin, Stanley Roberts of Port Nelson, B.C. were cleaning firearms.

Welch was rushed to the Didsbury hospital where he was given a blood transfusion and an operation. He is a married man with one child.

ANOTHER CHUCKLE

LIGHT YOUR WAY...

... WITH BIBLE STUDY

You possibly also read the article in the Calgary Herald on Saturday, November 28, 1959, entitled: "Religions will disappear, British biologist predicts." Sir Julian Huxley of London, an internationally famed biologist, is quoted: "Religions are destined to disappear in competition with other, truer, and more embracing thought organizations which are handling the same range of raw or processed experience."

We have not the space available, but suffice it to say that similar remarks have been made in the past centuries by other great and eminent men. In fact, at the time, there was even an endeavor to destroy all Bibles by burning them. Yet, this last effort failed, for the Bible is the most popular book, and the best seller in the world. And so the internationally famed men who made such rash predictions, they have passed from the stage of life, and their names are, by and large, forgotten.

It all comes down to God's own edict: "For verily I say unto you, till heaven and earth pass, one jot or one tittle shall in no wise pass from the law." (Matt. 5:18). And once again our Lord Jesus reiterated this: "Heaven and earth shall pass away, but My words shall not pass away." (Matt. 24:35). A simple study of pronouncements of men on this subject over against the statements of God will clearly show that men have erred but that God's Word has remained unswayed. As a Christian, I hold to the Word of God. It has never been proven wrong.

You are cordially invited to attend Redeemer Lutheran Church on Sunday, December 6th, when the pastor will speak on the theme: "Three truths for Today's Christians." The service will start at 10:30 a.m.

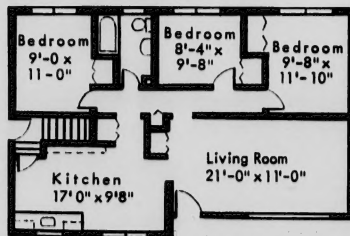

YOU ARE CORDIALLY INVITED TO ATTEND OPEN HOUSE

Didsbury On Friday & Saturday, December 4th & 5th, 7 to 10 p.m.

COMPACT & PRACTICAL

This is an ideal home for those requiring three bedrooms. Also included in this PRECISION-BUILT home are the large "U" kitchen with step-saving work area - factory built cupboards - spacious living room with planter - and convenient location of bathroom. Careful planning gives more closet space than the average home. Truly this home has been designed for happy living for years to come.

Briarhill 300 Series

DIMENSIONS 40'-0" x 27'-0" x 25'-0"
FLOOR AREA 1036 SQUARE FEET

SPEED & ECONOMY

Speed and economy was featured in the erection of this Pre-fabricated home by the use of factory PRECISION-BUILT wall sections - factory PRECISION-BUILT "W" type truss, C.M.H.C. approved - finished gable ends and factory built soffit sections. The pleasing exterior combines beautiful 10" REDWOOD SIDING together with contrasting gables finished in the popular Weldtex Plywood. This exterior finish provides warmth both in appearance and living with years of practicability in store.

The basement is adequately lighted by "Revy" brand MULTIE-PURPOSE DOUBLE GLAZED WINDOW UNITS that are prefitted at the factory. These Sash have reversible hardware permitting a choice of swing. The large living room contains a luxurious picture window that will give years of trouble free satisfaction in addition to adding character. "Revy" double glazed MULTI-PURPOSE WINDOWS are featured through the house. These modern window units contain their own "stroms" a feature that has eliminated the old cumbersome unsightly storm window. Lever action hardware of the best quality controls air flow to any required degree. The special weatherstripping assures a dust and draft free unit. Only those who have seen or used these modern window units can appreciate their value and convenience.

The selection of RED OAK HARDWOOD FLOORING together with floor tile, blending with mahogany doors create a pleasing atmosphere of gracious living and contentment. Clothes closets are equipped with steel folding doors with bonded ivory enamel finish. This truly is modern clothes storage convenience.

ON STORING DAMP GRAIN

Owing to the prolonged period of unfavorable harvesting weather, many western farmers will be faced this year with the serious problem of storing a considerable amount of "tough" and "damp" grain on the farm.

"Tough" Grain. If proper precautions are taken it should not be too difficult to store "tough" grain safely on the farm. Here are a few suggestions: (1) Aim to reduce the moisture content and the temperature of tough grain as much as possible before putting it in storage. (2) A thorough cleaning of tough grain is essential. (3) Store your tough grain in small bins, which are easy to get at for moist examination, and for turning, if necessary. (4) Keep a close check on the condition of your "Tough" grain this Fall and Winter.

"Damp" Grain. The safe storage of damp grain presents a more serious problem. Cleaning is a "must" for damp grain. Every means should be employed to reduce its moisture content, and to keep it cool. Providing space is available, the simplest way of drying damp grain is to mix the "damp" grain with "dry" grain of the same grade. Grain containing over 18 per cent moisture content, however, be dried before it is put in storage. Grain drying on farms is now possible and practical if a well-designed drier is used and operated by a competent operator who has a thorough knowledge of the requirements and dangers of grain drying.

Seek Advice. Detailed information on farm grain-drying equipment and procedures can be obtained from the Agricultural Engineer of your Extension Service, or of your provincial University. If you operate a grain drier, be sure and send in one-pound samples of the grain, taken before and after drying, to the Board of Grain Commissioners, Winnipeg, for quality tests. Your local elevator Agent will be glad to forward the samples from your grain drier to the Board for testing.

Ramblin' and Roamin'

Sometimes We Do Register A Win . . .

Our wee note last week regarding more adequate warning signs around the town school zone seems to have brought action in the right direction. The school principal has warned his charges against their jay-walking habits and the town council are thinking seriously about more prominent signs in that area. We might mention also that there now is the needed 24-hour police coverage in "our town" — those picked up for traffic violations or any other misdemeanor can expect no sympathy from this corner. If you're convicted you can well expect to see your name in print. If the lad who writes this wee column gets a tag hung on him by the police, his name will appear the same as any other offender.

Something Borrowed — But So True . . .

The average editor, of whatever politics or persuasion, is a man with two legs and the usual good impulses common to his kind. The average man desires to do the right thing. The average editor desires to print the right thing. He doesn't wish to abuse a section of the community and in the main he would rather please than offend. But there are a few people in every community who assume that just about everything in the paper is written with malicious heart. These people take all sorts of merry jibes and iron smiles out of them and make daggers. These people take happy satire and twist it into statements of fact. They are queer people and life is not a very joyful affair for them. They lack the charity which gives humor her eyes. They get along in the world some way, but they worry and fret and groan and moan so over the iniquities of others that life isn't much fun.

Top Shopping Season Underway . . .

With the advent of Yule shopping well underway, we would suggest you patronize your local merchants. You may be able to buy an article a few cents cheaper in Timbuctoo but the merchants there do not donate anything to the welfare of Didsbury. "Our Town", with its many modern facilities, is supported by our aggressive shop-keepers — let's show our appreciation by supporting them at all times.

Another Famous Quote . . .

"The average husband remembers when and where he got married — what escapes him is why."

MAYBE YOU ONLY **THINK**
YOUR HOME IS INSULATED!

"Insulation Sag" is a heat thief!

Insulate Your Insulation Now!

Costs Little, Pays Big!

Attic insulation often sags down 1/2 to 1" — and right there is the thief who steals your comfort and your fuel dollar. ZONOLITE mineral insulation won't sag! Insulate sagging insulation now at low mid-season cost — so easy to do!

ZONOLITE Won't Let You Down

Fluffy, non-sagging mineral ZONOLITE will never go flat and lose its efficiency. Fireproof! Sound! Out flame, adds protection to flammable insulations. Permanent, rat-proof, vermin-proof. Move the tape in low-cost year-round comfort, save on fuel for the life of your building!

MAN THE PUMPS,
MR. FLEMING

Canada's financial boat has been sailing in rough seas in recent years, and it would seem to us to have shipped a good deal of water recently. Mr. Fleming may not be guilty of poor seamanship in economic matters, but whether or not it's his fault, it's certainly time for him to man the pumps. The announcement this week that the government had to float bonds at six and half percent to retire bonds maturing shortly which were sold at only three per cent shows how serious is the situation. The rain clouds were gathered a couple of years ago when the government took the unwarranted action of jumping interest rates on their conversion loan. But imagine how difficult the new situation will be if the government must pay six per cent and more for short term loans, then the provinces, too, must pay more and, cities and towns, not being as good risks in the scale of money lending will be called on to pay more still, and at the end of the scale after large corporations, will come the individual borrower. There can be little doubt his situation will become next to impossible until the government alters the Bank Act, and increases the rate the banks may charge. No little part of the difficulty, in our opinion, is the feverish intensity with which the government is pumping money into the winter works programs to relieve unemployment, and is boosting the unemployment insurance payments. There can be no doubt they inherited a hot potato from the Liberal administration, but it is also reasonable to expect there will always be some level of unemployment. The frenzied efforts to eliminate it completely are costing the country dearly as the government competes for money with private borrowers.

HOWARD
FULCHER

Substitute milk feeding in raising calves is becoming more practical and successful.

On farms where whole milk is sold and it is impractical to provide calves with skim milk, it is expensive to continue liberal feeding of whole milk. In other cases where calves are being raised, which have been purchased, milk may not be available for feeding.

Calves can be successfully raised with "milk substitute" products and suitable concentrates. These milk substitute products all contain some skim milk or buttermilk powder and can be used to replace all or part of the milk usually fed.

It has been found in experiments that it is economical to ship milk and feed these products. These products are often fortified with vitamins and antibiotics; scours as well as other calfhood disorders seem less noticeable.

Following the feeding of these milk substitute products, commercial calf meals are available on the market. These are very suitable for calves after they are three weeks old; they contain milk powder, grain, minerals and by-products. A good calf meal will have 25% protein and not more than 4% fibre.

These above mentioned products are usually mixed with water and fed as milk, the meals as a gruel. They do not replace hay and grain, they are substitutes for milk, other feeds are fed the same as if calves were on milk.

Milk is the natural and an excellent feed for calves, but new substitutes and meals can be used successfully in raising good calves.

WHY NOT ???

Why not pick up a book from the Didsbury Library when you are shopping on a Saturday evening. Your local library is situated in the town office, and is open from 7 to 9 on Saturday evenings.

WHAT YOU SHOULD KNOW ABOUT FURNITURE

Learn to distinguish between solid woods and finishes. A cheap wood is often finished to look like higher priced walnut or mahogany. Hardwoods wear best, have beautiful grains that take good finishes. The most frequently used walnut, mahogany and birch.

Here are some ideas that will be of help to you:

1. Choose your store carefully. A reliable store with a good reputation is your best guide to confident shopping.

2. Look around to see what prices are available.

3. Know the size of the piece you will need.

4. Avoid a "dipped finish" (looks almost as if it is painted) as it does not stand up too well. A varnished or oiled finish is best.

5. Examine furniture in good light.

The life of a piece of furniture depends on its construction. Since a great deal of this is hidden or is not important, that you learn a few details to help you compare quality workmanship with badly built items.

JOINTS:— See how the legs are attached on chairs and tables. Dovetailed or mortise and tenon joints are the strongest and best construction here. Nails are used in lower priced furniture instead of screws and joints.

CORNERS:— The corners of chairs and tables should be reinforced underneath with blocks of wood or glued in, they should be reinforced by screws as well.

TABLE TOPS:— As well as being glued at the base, a table top should be attached with screws or steel clips to anchor it to its base.

DRAWERS:— The strongest and best drawers have dovetailed joints and a centre glide underneath. The inside of the drawer should be finished with shellac or wax to seal the wood and protect it from dust and moisture.

HIDDEN PARTS:— The back and underneath of good furniture should also be well sanded and finished. On very cheap furniture the backs of chairs are often just pieces of cardboard, stapled on.

TESTS YOU CAN MAKE IN THE STORE

1. Slide the drawers to see that they move easily without sticking. Pull at one end, if they are well balanced they need not be pulled from the centre to glide smoothly.

2. Make sure doors close easily, don't stick, that the edges fit without sagging.

3. Never buy a sofa or a chair without sitting in it. Even good ones may be a bit too small to be comfortable.

4. Rub your fingers over the concealed parts — insides of drawers, inside frames, underneath back. You may feel roughness you cannot see, and the smoothness and finish of these parts is a good indication of the quality of the furniture you are buying.

Furniture featuring simple lines are your best buy. Paid and very decorative pieces not only cost more and lose style quickly but are harder to take care of.

WEDDINGS

JOHNSON WHITE

A wedding of interest to Harman and Westdale districts was solemnized in the Westcott United church on Saturday, Nov. 7, 1959, at 2 p.m. when Doris May, daughter of Mr. and Mrs. Joseph White of Didsbury and Phillip Arthur second son of Mr. and Mrs. Albert Johnson of Harman, were united in marriage. Rev. Gladys Giffin officiated.

The youthful bride wore a full length crinoline gown of white chantilly lace and illusion nylon net over satin with lily-point sleeves and trim of seed pearls and beaded sequins. Her chapel veil misted from a tiara of seed pearls and sequins. She carried a white Bible with red roses and bud-screen white streamers. Dressed in deep-toned pastel chiffon waist-length crinolined gowns with matching gloves and feather head pieces, the bride's attendants carried colonial bouquets of white and yellow mums. Baskets of mums in autumn shades decorated the church chancel. Maid of Honor was Miss May Johnston, cousin of the bride, who wore a pink chiffon ensemble. Bridesmaids were Miss Noreen Johnson, sister of the groom, in blue, and Miss Diane Kouschul, wearing an aqua-colored dress. The groom was supported by Gerald White, the bride's brother, and ushers were two of her cousins, James Jackson and Glen Ker-shaw.

For her daughter's wedding, Mrs. White wore a turquoise taffeta dress with pink accessories. Her corsage was pink carnations as was that of the groom's father who wore royal blue nylon sheer with white accessories.

Mrs. Gordon Ford was organist for the occasion, playing the Wedding March and while the register was signed.

Following the service, guests were received downstairs where a delicious lunch was served by several local ladies and their young helpers.

The wedding cake, beautifully decorated by Mr. Otto Folkman, centered the bride's table. Ralph Jackson of Westdale was toast-master and Miss Giffin offered thanks. Jack Johnston proposed the toast to the bride, to which the groom's father who wore royal blue nylon sheer with white accessories.

Miss Jennifer Morton displayed the wedding gifts and Miss Judy Johnston had charge of the guest book.

Out-of-the-district guests were from Harman, Gull Lake, Three Hills, Cremona, and Calgary.

It was regrettable that, due to illness, the groom's maternal grandparents, Mr. and Mrs. Ware, of Eagle Hill, could not be present.

In the evening there was a wedding dance at Harman Hall for which Fisher's Orchestra played.

Following a short honeymoon the newlyweds will reside on the farm of the groom, near Harman.

BERGEN NOTES . . .

Green Thumb Works Again

Mrs. Purell Blain has had her "green thumb" working again. In her picture window can be seen a very lovely poinsettia plant which stands about 2½ feet high and has five large blooms. Mrs. Blain has had the plant for several years but this is the first time she has been successful in having any flowers. It requires 14 hours of complete darkness every night and cannot stand artificial light.

Diane Cook was an overnight hospital patient after breaking her nose while playing at school.

Considerable work has been done on the west side of the Bergen Hill. The road has been widened and the curves eased, which should help more than enough during the winter.

Mrs. Blain is also adept at growing tuberosus begonias, as well as many other flowers and plants.

Mr. and Mrs. D. O. Clark were recent visitors in Enchant with Mr. Don Clark and family.

PLYMOUTH STRESSES SWISHLINE FOR '60

Featuring a new rakish rear fender design and a clean, sweptline front view, the Plymouth for 1960 is a vehicle specially designed for modern day living. Its unitized construction allows for a lower silhouette without taking away any front or rear-seat passenger space. A sounder,

smoother ride is assured through its revolutionary new soundproofing-rustproofing process, exclusive with Chrysler of Canada passenger cars this year. Pictured here is the car of today with the design of tomorrow, the Plymouth four-door Fury hardtop.

Solid for '60...

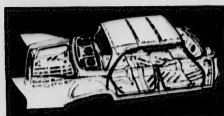

Announcing the new *Plymouth*

Solid comfort! Solid performance! Solid safety! Solid beauty! You'll find them all in this 1960 Plymouth, with rustproof and rattleproof Unibody, new inlined overhead-valve six-cylinder engine, and a whole car-full of other solid improvements new to the low-price field!

Here is a car with new Unibody construction that eliminates body bolts to give you a more solid, quieter ride than ever!

Here is a car that features the most complete rustproofing treatment in the entire automobile industry!

Here is a car that delivers up to 50 extra miles on every tank of gas, with a completely new kind of overhead-valve six-cylinder engine inclined like modern racing engines.

There's not a bolt in this Plymouth Unibody to spoil the solid quiet of your Plymouth ride. Body, frame, crossmembers and panels are all one solid piece of steel. Every Unibody is dipped seven times to prevent rust.

Not a bolt in the body

No car in Plymouth's class was ever built like this before. New "bridge truss" Unibody makes the difference.

The Plymouth structure is all one piece — frame, body, crossmembers and exterior panels — without a body bolt in it to spoil the solid silence of your Plymouth ride.

Unibody is one and one-half times stronger, end to end, than conventional types. It is four times as durable.

Most comprehensive rust-proofing of any car — ever

Not only is your Plymouth built to withstand wear and road punishment; it's designed to resist the ravages of weather, too. For this year, Plymouth introduces a completely new rustproofing process, more comprehensive than any rust preventive treatment ever known to the auto industry.

Unibody is dipped a full seven times to protect it for years to come!

New Six... new savings!

Just lift the hood on a Plymouth 30-D Economy Six. You'll see a totally new kind of engine as revolutionary in the way it looks as it is in the way it saves and performs.

It's inclined to the side — just like modern racing engines — at an angle of

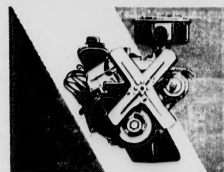

30 degrees. This permits a straight air intake with no elbows or angles to impede engine breathing. And even more important, inclining the engine allows Plymouth to introduce a straight-line, individual-cylinder manifold system that feeds the right diet of gas to each cylinder independently.

Plymouth makes the big changes the others overlooked

You've only begun to learn about Plymouth for 1960. Here are automatic door locks that lock all doors at the flick of a switch. Here are automatic swivel seats and a high-back Command seat for the driver. And here are Plymouth's own Torsion-AIRE Ride, push-button drive, Total-Contact brakes — all improved for 1960.

But why not see for yourself? Your Plymouth dealer has a new Plymouth awaiting your trial and inspection right now. Visit him today.

A Quality Product of Chrysler Corporation Engineering

Plymouth's new overhead-valve, six-cylinder engine inclined 30 degrees, delivers up to 50 extra miles per tankful! (Plymouth V-8's are money-savers, too!)

1960 Plymouth...built a new solid way to give you solid satisfaction

DISTRICT NEWS

M.V.B.C. NEWS

(From Our Own Correspondent)

We have had the privilege of having Rev. Burgess in the college chapel service twice since we wrote our last column. Monday morning he gave a wonderful sermon on counselling. It is the case of things that we have little privilege of hearing and made an impact on the minds of both students and faculty. After all, people need to be understood, and this was the burden of all his topics during the Sunday school convention held in the church. He is a man of wide experience as a pastor and knows his subject in all of these fields.

A group of faculty members and students visited in Edmonton during the weekend and took part in the services of the Edmonton church while there.

Mr. and Mrs. Stewart Flinn were visitors in Bergen with Rev. and Mrs. Harley Dyck during the week.

Rev. Bob Simpson was a guest speaker in chapel on Friday. He always brings a great deal of inspiration with him, but this time he brought pens with letter opener attachments and presented them to the students and faculty as gifts. The new piano, which was purchased from Mr. Art Reiber, is now in the chapel. A large number of people bought keys at a given price, and very soon the piano was paid for. It is a good instrument and has added much to the practicing piano and voice students.

Mrs. Edna Dietz is still in hospital. She has been there for several weeks now, and we are hoping that she will be soon be with us again.

Mr. Glen Eby is now working in town and visits the campus quite often. He is the son of our main-tenance superintendent.

Last Thursday evening the American students again put on a program at their annual Thanksgiving dinner. Mr. Fred Martin was master of ceremonies and each American student or faculty member had some part in the good program presented. The turkey dinner was wonderful.

Mr. Roger Meyer is expecting his piano from Ontario any day now. This will add more facility to our music department. This department is really on the move, and many students are receiving help in the field of music this year.

Mr. Peter Waldin showed a film to the students last Wednesday during chapel period. It had to do with the subject of family worship within the home, and again reminded us of the saying: "The family that prays together, stays together."

WESTCOTT W.A. HOLDS REGULAR MEETING

The November meeting of the Westcott W.A. was held at the home of Mrs. R. McNaughton with 18 members and two visitors present. Mrs. W. Tohm, assisted by Mrs. Carl Eckstrand, conducted the devotional period.

Mrs. C. Fischer gave the missionary topic.

The next meeting will be held at the home of Mrs. D. Robertson.

WESTERDALE NEWS

(From Our Own Correspondent)

Mr. Ralph Jackson has been travelling the west country for the past few weeks collecting P.P.A. data.

Mr. S. Jackson and Mr. F. Jackson motored to Calgary Tuesday to return Mr. G. Jackson to his home, following medical examinations.

CREMONA NEWS

(From Our Own Correspondent)

The local basketball boys' team won a game played at Sundre last Friday evening.

The United church W.A. arranged a social evening in place of their annual pot luck supper on Friday evening of last week. Approximately 35 folks were in attendance for the fun and fellowship.

The bi-monthly meeting of the Sewing Circle was held at the home of Mrs. Justina Simpson last Wednesday afternoon.

Mrs. Marion Reid is visiting in Calgary for a few days. Word was received in Cremona recently of the accidental deaths of James Atkins, aged five, son of Mr. and Mrs. Rex Atkins of Burlington, Ont., and Mrs. Atkins father, Mr. C. Goodenough. Mrs. Atkins suffered head injuries in the accident that claimed the lives of her son and father. Mr. Rex Atkins grew up in this district.

Mr. and Mrs. E. Adams have purchased the house next to Frizzells from Mr. Wm. Graham.

Your MD I.Q. ?

What is your MD I.Q. ? If you are a victim of muscular dystrophy, praying for a cure that will save your life, your muscular dystrophy intelligence quotient is likely pretty high. After all, it's your life.

If the disease hasn't touched you or your family or your friends perhaps you don't know as much about it as you should.

The report of The Muscular Dystrophy Association of Canada make sober reading. The association reckons that in Canada alone there are between 20,000 and 30,000 victims of this terrifying crippling — most of them children. Despite the hundreds of thousands of dollars donated by a generous and sympathetic public to support basic medical research, science does not yet have the answer.

But the search goes on and is marked again this year by the 24th annual march for Muscular Dystrophy in a bid by the association for continued public understanding and funds to carry on the relentless battle. Their goal this year is over \$300,000. They know that Canadians will not let them down.

INNISFAIR LIONS FINDS A WINNER

Larry Sands, of Rocky Mountain House, was presented with the 1960 Dodge won in the recent Innisfair Lions Club play-at-home car-bingo, in a ceremony held Saturday morning.

Sands was a non car owner until he struck it lucky to win the car in the Innisfair Lions Club Car Bingo.

Squirrel Cage . . .

DIPLOMACY ? ? ?

Two men were discussing their new boss. "You can't help liking the guy," said one. "If you don't he fires you."

THE RIGHT PLACE . . .

The fat man and his wife were returning to their seats in the theatre after the intermission.

"Did I step on your toes as I went out?" he asked a man at the end of the row.

"You did," replied the other very grimly, expecting an apology.

The fat man turned to his wife: "All right, Mary," he said, "this is our row."

SO TRUE, SO TRUE . . .

There's a line on the ocean where by crossing you can lose a day. There's a line on the highway where you can do even better.

INFLUENCE

- How often a successful executive, far from his small-town birthplace — maintains his contacts through regular receipt of his weekly newspaper.
- There is nothing quite like a small town weekly for neighborly news and intimate contacts.
- People in the advertising business talk about selected audiences — sharply focused circulation. They have learned from experience that when a publication is specially edited to appeal to the specific interests of a smaller group of people, its opportunities to make sales are multiplied many times over.
- The weekly newspaper is that kind of publication. Whether its circulation is a few hundred or a few thousand, it represents effective circulation.
- Gather the towns-people and farm folk around you when you advertise. Surround yourself with friendly neighbors — deliver your advertising message through your local weekly newspaper.

53.2 Per Cent of Canada's population live in places of 10,000 or Less. THESE ARE WEEKLY NEWSPAPER MARKETS.

Little Items of Local Interest

Mr. and Mrs. A. S. Gole returned recently from Ontario after visiting with relatives for several weeks.

—Twenty per cent trade-in on your old watch — large stock to choose from. See Wayne A. Maki, Jeweller, Didsbury.

Mr. and Mrs. George Law and Mr. and Mrs. R. J. Durnell of Calgary were Sunday visitors with Mr. C. E. Reiber.

Mrs. R. Fischer and sons, of Brampton, Ont., are visiting at the present time with Mr. and Mrs. H. Fischer. They plan to remain in the district until after Christmas.

—See the latest styles in Black Diamond Rings at Wayne A. Maki Jewellers, Didsbury.

Mr. and Mrs. C. Shields of Calgary visited with friends in town at the weekend.

CALGARY GIRL HIT LATEST POLIO VICTIM

Another poliomyelitis case was reported by the Calgary health department Tuesday and brought the year's total to 18 for the district, including 16 in the City of Calgary.

Latest victim is an 11-year-old girl. She contracted the non-paralytic type of polio and she had received no dose of Salk anti-polio vaccine.

All the cases in the Calgary district have occurred since the end of August.
